Return to Mason City, Ia. for Meat Scrap Loading

Leo V. Doherty sketched and made notes of the type, painting, stenciling, and location of freight cars he saw on the Long Island Railroad during the late steam, early diesel era. He was a modeler and used these notes to authenticate and perfect the models of the period.

Leo was thorough. Among the many notes he took was stenciling on the sides of cars giving the limitations in use of the cars, such as "Rough Freight Only"; return routing, such as

"Return via Southern RR to Louisville Ky.", "Return to Agent Memphis, Tenn."; handling, such as "Clean Lading Only"; restrictions, such as "When Empty Return to Bunnell, Fla.", "Flour Loading Only", and "Do Not Contaminate". Each decal will suffice for approximately 45 cars

Ray Muntz sent us copies of Leo's notes many years ago. We believe HO modelers will find decals of these stencils interesting finishing touches to their lettering of models.

- ___E 201 Late Steam, Early Diesel Assignment, Restrictions, Return, Limitation Stencils found on Wood Boxcars, \$10
- ___E 202 Late Steam, Early Diesel Assignment, Restrictions, Return, Limitation Stencils found on Steel Boxcars, \$10
- ___E 203 Late Steam, Early Diesel Assignment, Restrictions, Return, Limitation Stencils found on Hoppers, \$10
